

(CCC) Planning Policy Consultation Information

I require the following information from your authority:

- When was your last planning policy public consultation and what stage were you at? (For example, Regulation 19 Publication)
- How many representations did you receive?
- How many of these were online responses?
- how many were postal/letter responses?
- What consultation system did you use to run the consultation?
- Any other engagement opportunities taken during or outside of the consultation period, such as roadshows (and the number of attendees).
- If your last consultation was Regulation 19, how many of those responses commented on the Strategy Section/Core Strategy as opposed to the site's documents, and how many online and postal responses were received related to this?

If your last consultation was not a Regulation 18 Issues and Options consultation, please answer the following questions in addition to the questions outlined above:

- ♣ When was your last Regulation 18 Issues and Options consultation?
- ♣ What online consultation system did you use?
- ♣ How many people responded online?
- ♣ How many people responded via post?
- ♣ Did you use other engagement methods during or outside of the consultation, if so, what?
