Dear Miss Graham

**South Cambridgeshire Local Plan Examination: Interim Finding in Respect of Policy NH/12 Local Green Space**

I refer to your letter of 16 March 2017 providing interim findings in respect of Policy NH/12 Local Green Space.

As requested, the Council has undertaken a review of Local Green Spaces (LGS) in light of the Inspectors' initial findings, drawing on the examples provided by the Inspectors in their preliminary findings.

The Council has prepared a report which sets out how the Council has undertaken the review, including the revised methodology for assessing sites and the findings of the review. The review process has concluded that 83 of the sites assessed are considered to meet the NPPF criteria, and reflect the high bar given to the designation consistent with the Inspectors' conclusions. Of those that do not warrant LGS it concludes that a number of sites should either return to Protected Village Amenity Area (PVAA) – 25 sites, become new PVAA – 43 sites, or become Important Countryside Frontages – 4 sites.

The report was considered by the Planning Portfolio Holder at his meeting on 26 July 2017 (RD/CR/800), who agreed the review and to proposed modifications to Local Green Space sites identified in the Submitted Local Plan, subject to some amendments which, along with some technical corrections, were subsequently agreed through a written portfolio holder decision on 4 August 2017 (RD/CR/801).

The final report has now been published, and has been added to the reference document list: 'Further work on Policy NH/12: Local Green Space responding to the Inspectors' Interim Findings' (RD/NE/370).' A list of proposed modifications, reflecting the findings of the report, are attached.

Yours sincerely

*Caroline Hunt*
