

Part B Application Form

Application for a permit for respraying of road vehicles covered by process guidance note PG6/34b(11)(Rev 2013)

Local Authority Pollution Prevention and Control Pollution Prevention and Control Act, 1999 Environmental Permitting (England and Wales) Regulations 2016

Introduction

When to use this form

Use this form if you are applying for a permit to a Local Authority to operate a vehicle refinishing installation as defined in Section 7 of Schedule 1 to the Environmental Permitting Regulations and covered by PG6/34(11)(Rev 2013).

The appropriate fee must be enclosed with the application to enable it to be processed further. When complete, send the form and the fee and any additional information to:

Environmental Quality and Growth Team Cambridge City Council PO Box 700 Cambridge CB1 0JH

If you need help and advice

We have made the application form as straightforward as possible, but please get in touch with us at the local authority address given above if you need any advice on how to set out the information we need.

В	The installation
	Please provide written information about the aspects of your installation listed below. We need this information to determine whether you will operate the installation in a way in which all the environmental requirements of the EPR Regulations are met.
B1	Describe the proposed installation and activities and identify the foreseeable emissions to air from the process.
	Document reference:
B2	Once all foreseeable emissions have been identified in the proposed installation activities, each emission should be characterised (including odour) and quantified.
	Atmospheric emissions should be categorised under the following:
	i) point source, (e.g. chimney / vent, identified by a number and detailed on a plan)
	ii) fugitive source (e.g. from stockpiles / storage areas).
	If any monitoring has been undertaken please provide the details of emission concentrations and quantify in terms of mass emissions. If no monitoring has been undertaken please state this.
	(Mass Emission - the quantification of an emission in terms of its physical mass per period of time. e.g. Grams per hour, tonnes per year)
В3	For each emission identified from the installations' activities describe the current and proposed technology and other techniques for preventing or, where that is not practicable reducing the emissions. If no techniques are currently used and the emission goes directly to the environment, without abatement or treatment this should be stated
	Document reference:
B4	Describe the proposed systems to be used in the event of unintentional releases and their consequences. This must identify, assess and minimise the environmental risks and hazards, provide a risk based assessment of any likely unintentional releases, including the use of historical evidence. If no assessments have been carried out please state.
	Document reference:
B5	Describe the proposed measures for monitoring all identified emissions including any environmental monitoring, and the frequency, measurement methodology and evaluation procedure proposed. (e.g. particulate matter emissions, odour etc). Include the details of any monitoring which has been carried out which has not been requested in any other part of this application. If no monitoring is proposed for an emission please state the reason.

Document reference: _

B6	Provide detailed procedures and policies of your proposed environmental management techniques, in relation to the installation activities described. Document reference:	
B7	Attach a plan of the premises showing the location of:	
	a) the premises b) spray booths c) organic solvent containing material storage d) organic solvent containing waste storage	
B8	Supply a description of the location and methods of storage of organic solvent containing materials.	
	Document reference:	
B9	Supply certification of spray booth performance	
	Document reference:	
B10	Are VOC emitting stacks ¹ at least 3m above the roof ridge height of buildings within 15 m of the stack?	
	□ Yes □ No	
	If 'no', please provide a written plan for the construction, operation and maintenance of stacks emitting VOCs. Document reference:	
B11	Provide details how the mass of VOC emitted and of paint solids used will be determined and recorded.	
	Document reference:	
B12	Provide a written plan for the maintenance, inspection and replacement of extract air filters of the spray booth and abrasive blasting equipment plant.	
	Document reference:	
B13	Provide a written plan for measuring particulate emissions from abrasive blasting equipment, using manual extractive testing methods.	
	Document reference:	
B14	Provide a written plan for control of VOC emissions from spray gun testing and sprayout following cleaning.	
	Document reference:	

¹ NB – All new VOC emitting stacks are required to vent VOC's at a height greater than 3m above the roof ridge height of buildings within 15 m of the stack

Document reference: B16 Provide a written plan for the control of VOC emissions from solvent contaminated wipes and other wastes. Document reference: B17 State whether any structured environmental management system (such as ISO 14001, EMAS or BS8555) or a tailored system is being used or is planned, and if so what. Document reference: B18 Specify what training and instruction staff will be given to ensure that this Permit (if granted) is complied with. Document reference: B19 Provide an assessment of the potential significant local environmental effects of the foreseeable emissions (for example, is there a history of complaints, is the installation in an air quality management area?) Document reference: B20 Are there any sites of special scientific interest (SSSIs) or European Sites which are within 500 metres of the installation? □ Yes □ No If 'yes', please give names of the sites B21 Provide an assessment of whether the installation is likely to have a significant effect on such sites and, if it is, provide an assessment of the implications of the installation for that site, for the purposes of the Conservation (Natural Habitats etc) Regulations 1994. Document reference: B22 Environmental Statements Has an environmental impact assessment been carried out under The Town and Country Planning (Environmental Impact Assessment) (England & Wales) Regulations 1999, or for any other reason with respect to the installation? □ Yes □ No If "Yes" please supply a copy of the environmental impact assessment and details of an decision made	B15	Provide a written plan for the control of VOC emissions from spray gun and equipment cleaning.

B22	Additional Information
	Please supply any additional information which you would like us to take account of in considering this application.

С	Fees and Charges
C1	The enclosed charging scheme leaflet gives details of how to calculate the application fee. Your application cannot be processed unless the application fee is correct and enclosed.
	Please state the amount enclosed as an application fee for this installation.
	Cheques should be made payable to:
	We will confirm receipt of this fee when we write to you acknowledging your application.
	Please give any company purchase order number or other reference you wish to be used in relation to this fee.
C2	Annual charges
	If we grant you a permit, you will be required to pay an annual subsistence charge.
	If you don't pay, your permit can be revoked and you will not be able to operate your installation.
	Please provide details of the address you wish invoices to be sent to and details of someone we may contact about fees and charges.
	Destrodes
	Postcode: Telephone:
C3	Commercial confidentiality
	Is there any information in the application that you wish to justify being kept from the public register on the grounds of commercial confidentiality?
	If 'Yes', please provide full justification, considering the definition of commercial confidentiality within the Regulations (See the appropriate general guidance manual).
	Doc Reference:

C4 Data Protection Declaration

The information you give will be used by the regulator to process your application. It will be placed on the relevant public register and used to monitor compliance with the permit conditions. We may also use and/or disclose any of the information you give us in order to:

- consult with the public, public bodies and other organisations,
- · carry out statistical analysis, research and development on environmental issues,
- provide public register information to enquirers,
- investigate possible breaches of environmental law and take any resulting action,
- prevent breaches of environmental law,
- assess customer service satisfaction and improve our service.

We may pass on the information to agents/ representatives who we ask to do any of these things on our behalf.

It is an offence under the relevant regulations, for the purpose of obtaining a permit (for yourself or anyone else) to:

- make a false statement which you know to be false or misleading in a material particular,
- recklessly make a statement which is false or misleading in a material particular.

If you make a false statement we may prosecute you, and if you are convicted, you are liable to a fine or imprisonment (or both).

C5 Declaration

Signature of current applicant(s)*

I / We certify that the information in this application is correct. I / We apply for a permit in respect of the particulars described in this application (including supporting documentation) I / We have supplied.

Please note that each individual applicant must sign the declaration themselves, even if an agent is acting on their behalf.

For the application from:

Premises name:	
Signature:	
Name:	
Position:	
Date:
