

COMMUNITY GRANTS

Annual report 2022-2023

Cambridge City Council's Community Grant fund is available to fund voluntary, community and not-for-profit organisations to run projects that will help to **reduce social or economic inequality for Cambridge residents with the most need.**

Activities need to:

- reduce poverty
- improve skills and confidence to help people gain employment
- improve health and wellbeing
- encourage communities to come together and bring about change
- strengthen and grow the city's voluntary sector.

In 2022-2023, a total of **£1,073,511** was awarded:

- **£937,200** of this was through Community Grants to benefit all parts of Cambridge
- **£74,600** of this was through government Covid-19 support funding
- **£61,711** of this was through Area Committee Grants, to run specific neighbourhood activities
- **88** groups were funded in total
- **136** activities were delivered.

Citywide activities were funded as follows:

For a breakdown of Area Committee funding see pages 20 to 23.

With thanks to **465 trustees** and **3,337 volunteers**, who support the work of the organisations receiving funding

Foreword

I am proud to present our 2022 to 2023 Community Grants annual report, detailing how we've funded more than £1 million in grants to local community organisations across Cambridge. This is one of the most important discretionary programmes we run, as we recognise the huge value of investing in our local community and voluntary sector in support of our residents.

This report highlights the significant impact of activities we fund, across so many areas. There are projects related to reducing poverty, encouraging people to take up sports and fitness activities, to projects focused on the benefits of arts and culture, and activities working with young people, or individuals with disabilities, or older communities.

These activities really make a difference for our communities. They are a lifeline to many who are struggling, and life changing in many cases. I'd like to particularly thank all the community and voluntary organisations who deliver all the projects highlighted in this report and who provide such an invaluable public service, and extend a special word of thanks to some of the new organisations who have benefitted from our grants this year.

Discretionary Rate Relief

23 awards

In addition to funding activities, the Community Grants fund considers applications for Discretionary Rate Relief from qualifying voluntary and community groups.

Discretionary Rate Relief is relief that councils can award to organisations to reduce their business rates bills, in addition to the mandatory reliefs that are awarded by government.

To be considered for Discretionary Rate Relief, groups were required to demonstrate that the activities taking place at their premises met our funding priorities and outcomes. The level of relief awarded is proportionate to the number of beneficiaries that are Cambridge residents.
